David Broadbent, ABYC Director of Education

11:00 am - 12:00 am, Incorporating hybrid tables into Marine Survey Reports  
Scott Schoeler, AMS® will present his method of incorporating hybrid data tables in place of the narrative format.

**The Art of Conducting a Thorough, Effective Sea Trial - presented by Steve D'Antonio**

**Friday, January 29, 2021**

**1:30 pm – 3:00 pm**

**Webinar, exclusive for SAMS members**

Having conducted hundreds of sea trials, the presenter has developed strong ideas about what works and what doesn't. A proper sea trial will tell you a great deal about a vessel, from the obvious handling and sea keeping characteristics to details about charging systems, exhaust temperature, back pressure and vibration issues. In this presentation you'll learn how to turn a boat ride into an effective test, demonstration, pre-purchase, repair evaluation and troubleshooting tool, by running a vessel in a manner that will reveal defects, faults and errors as well as prove system reliability. Data collection and recording as well as engine manufacturers' guidelines will also be covered in detail. If you have ever taken a vessel on a sea trial to verify a customer's complaint or observation, only to return and say "I couldn't duplicate the problem" it's probably not your fault, you simply haven't learned how to conduct a sea trial, until now.

**Steve D'Antonio**

Steve has been active in the boating industry since 1998. In 2007 he resigned from his position as the Manager of boat building and repair to launch his consulting business.

Because of his unique ability to explain highly technical information on a wide array of boating topics in a clear manner he has become a widely sought-after voice in the marine industry often providing lectures for major boating industry association meetings.

Steve possesses four American Boat and Yacht Council certificates, including Corrosion, Diesel Engine, Electrical and Systems categories and ABYC Master Technician status.

Steve is the Technical Editor for Professional Boat Builder Magazine and served in that role for Passage Maker Magazine and is a regular contributor to Cruising World, Ocean Navigator, Yachting and Prop Talk Magazine.
