SURVEYORS®

Wednesday, May 25, 2022

Mona Miller, AQB Certified USPAP Instructor

10am – 5:00 pm (EST) USPAP 7-hour refresher course

The 7-hour USPAP update course is designed for designated appraisers and marine appraisers who have successfully completed the full 15-hour USPAP course in the last 5 years. This is a 1-day online review with no test.

This refresher course is offered every 2 years to keep appraisers current and in compliance with USPAP. The 7-hour course allows the appraiser to fulfill their USPAP requirement for 2 years. The 7-hour USPAP update class covers revisions that impact every practicing appraiser. In addition, the course confronts some of the regularly misunderstood concepts and reviews their application through the use of other communications published by the Appraisal Standards Board. It is always best to take the 7-hour refresher course when it first comes out every 2 years to keep you in the cycle.

Following participation in this online course and included in the fee, each student will be registered with “The Appraisal Foundation” to remain on the register and reflect they are up to date with the current USPAP.

Registration will include an electronic pdf copy of 2022-2023 edition of the 7-hour USPAP Update Course Student Handbook and the USPAP Reference Manual. Both references will only be provided electronically in PDF format however, participants may print the manuals at their own cost.

Mona Miller

Mona is the owner of Pacific Gemological Laboratory, in Portland Oregon.

Mona is re-certified through professional affiliation examinations via the American Gem Society (AGS) on a yearly basis, and via the American Society of Appraisers (ASA) every two years. All business is conducted in conformity with the Uniform Standards of Professional Appraisal Practice of the Appraisal Foundation, and the Principles of Appraisal Practice and Code of Ethics of the American Society of Appraisers.

Over the years Mona has provided USPAP training for the Marine Surveyor throughout the various regions of SAMS®.
